

## About You

We want to hear your story. Please feel free to tell us about your tattoo: special meanings, drunken nights, falling in/out of love, capturing a moment, remembrance, group-think or whatever else we haven't thought of (we are sure your stories are better than ours). Fill in the space below, write us a letter or however else you want to share -

## Why do you want your tattoo removed?

- Career Opportunities
- Change of heart
- To get a new tattoo
- Relationship
- Ready for something different

## How long have you been thinking about removing your tattoo?

- 0-3 Months
- 3-6 Months
- 6-12 Months
- 12 Months -2 Years
- 2 Years +

## Before Your Treatment

- Fill out the Medical History Form prior to your first visit to save you waiting time in the office. You can email, scan or fax the form ahead of time or bring it with you to your appointment.
- Do not wear makeup on the tattoo the day of treatment.
- Do not use sun-tanning or self-tanners 4 weeks prior to treatment, including spray tans, tanning lotions, tanning beds, sun exposure, etc.
- Be aware that some medications may increase the risk of bleeding and bruising.
- Avoid treatments that may irritate the skin for 1-2 weeks prior to treatment (waxing, depilatories, etc.).
- Notify The UnTattoo Parlor with any changes to your health history or medications since your last appointment.
- A history of herpes or cold sores may require an anti-viral prescription prior to treatment. If you have been prescribed an antiviral medication, please take it within 6-12 hours of your treatment.
- If you are in need of an anti-viral medication prior to treatment The UnTattoo Parlor can prescribe one for you.
- Inform The UnTattoo Parlor before treatment if you are pregnant or nursing.
- Please feel free to contact The UnTattoo Parlor by phone, text or email with any questions or concerns.

## After Your Treatment

- Avoid sun exposure and use a broad spectrum UVA/UVB sunscreen to prevent sun damage
  - Bruising, redness and swelling are common and resolve with time
  - Mild soreness in the treatment area is normal
  - Do not pick at treated areas
  - Treated pigment will exfoliate off the body in approximately 2-3 weeks
  - Avoid heat including but not limited to, hot tubs, saunas, etc. for 1-2 days
  - Avoid skin irritants for a few days post-treatment. These include but are not limited to products containing tretinoin, retinol, benzoyl peroxide, glycolic/salicylic acids, astringents and etc.
  - Notify The UnTattoo parlor immediately of any concerns including but not limited to, blistering, excessive redness swelling and etc.
  - Call 911 or go to your nearest Emergency Room in the case of a medical emergency
  - We want to know how you are doing. Please feel free to send us a picture of your tattoo or write us an update as healing progresses.
